

***Our Services:  
Targeted for Maximum Results***

**At *The Strategic Image*, we believe your best chance at the winner's circle comes from running the smartest race.** So rather than be all things to all people, we focus our services in the five key areas research and experience show attorneys need us most:

- **Case Story Development**
- **Legal Graphics**
- **Courtroom Presentation Training**
- **Witness Preparation**
- **Media Training**

Whether you want to pre-program the jury during Opening Statement, immortalize documentary evidence in indelible images, seize the high ground with witness testimony, cinch your win during Closing Argument or merely tame that pack of rabid reporters on the courthouse steps, we can guide you past the mile posts every step of the way.
